

New Generation Chuck WR III Technology

Benefits of WASTE REDUCER III

Minimum paper left on the core
Designed for thin-walled cores
Overcomes short and shrunk cores

**Chuck to core
contact ONLY!**

**Minimum paper left on
core — NO paper edge
tearing near the core.**

WR III Technology

PATENT PENDING

Cam design allows quicker engagement to the core

Tapered roller bearing to resist axial force

Single roller enables 100% core contact

Lip avoids paper damage near the core

How the WR III saves you money

50' Paper Saved x 48 Rolls x 5 Stands = 12,000' Paper Saved Daily
 Estimated Paper Cost* \$0.142 ft x 12,000' Paper Saved = \$1,706 Daily Savings
 \$1,706 x 25 days/month = \$42,600 Monthly Savings

*8000 lbs Roll = \$4,000

Are you ready to save product, time and money? Let's talk.
